An eco-friendly house, part of a complex, set in a tranquil environment surrounded by pine trees with views onto the endless blue of the West Coast

Nestled in the verdant hills on the outskirts of the village Athani, this complex blends smoothly into the natural landscape offering generous unobstructed views of the deep blue Ionian sea and unforgettable sunsets while peace and privacy are guaranteed.

A Mediterranean Maisonettes traditionally constructed with stone and wood, quite elegant in their simplicity and with a comfortable layout. The house is formed in 2 levels approximately 50sqm; on the ground floor features an open plan living, kitchen and dining area, a bedroom and a stone terrace overlooking the sea. On the top floor, there is an open attic with a large bedroom. The surrounding outdoor area currently owns a communal garden with manicured trees, colorful flowers and stone-paved paths leading to each house, however potentially each property will have its own private exterior area separated with a wooden fence.

The complex is in close driving distance from the famous beaches Egremni and Porto Katsiki and offers you the proper space for the construction of a private swimming pool.
